About Me

I am currently a second-year student pursuing a Bachelor's degree in Computer Applications at Jain College, Bengaluru. My career aspirations are to specialize in Software development. I am also keen on pursuing advanced studies in computer Science to further enhance my knowledge and career prospects.

Career Objective

As an aspiring Software Developer, I am seeking an internship that offers challenging roles and opportunities for learning. My aim is to leverage this opportunity to evolve into a dynamic and competent professional, continually growing in my career.

Education

Jain College | Bengaluru
Bachelor of Computer Applications (BCA) | 09/2025

PES college | Bengaluru
PCMC's | 05/2022

Vijaya bhārathi vidyalaya | Bengaluru
State board | 04/2020

Experience

Codsoft | Bengaluru
Web Development Intern | 04/2024 - Present
Responsibilities:

1. **Learning** the basics of **HTML**, **CSS**, and **JavaScript** under the guidance of experienced developers.
2. **Developing** and **testing** web pages and applications.
3. **Collaborating** with the team to understand project requirements and translate them into functional code.
4. **Debugging** and **fixing** issues in existing code.
5. **Participating** in code reviews to learn best practices and improve coding skills.

Accomplishments:

1. **Built** a functional **calculator** using HTML, CSS, and JavaScript, demonstrating a solid understanding of these technologies.
2. **Created** a **landing page** and a **personal profile page**, showcasing design skills and understanding of user experience principles.
3. **Successfully collaborated** with a team of professional developers, gaining real-world experience of the software development life cycle.
4. **Improved** problem-solving and debugging skills through hands-on experience with real projects.
5. **Received positive feedback** from supervisors for diligence, eagerness to learn, and attention to detail.

Skills

Python, Javascript, JAVA, Html5, C++, OOP, C, CSS, Networking, Software development, SDLC, Communication skills, Microsoft office

Certificate Programs

- **Python Basics:** Certified through HackerRank, demonstrating foundational proficiency in Python programming.
- **Career Essentials in Software Development:** Completed the Career Essentials in Software Development course offered by Microsoft and LinkedIn, demonstrating a comprehensive understanding of software development principles and practices.
- **IT Security Foundations: Operating System Security:** Acquired certification, showcasing expertise in operating system security principles.

- **Programming Proficiency:** Earned certifications in C, C++, Java basics, and Python basics through LinkedIn Learning, highlighting a commitment to continuous learning and competence in essential programming languages.
- **Database Management:** Certified in database management through LinkedIn Learning, validating mastery of key database concepts and management techniques.

Projects & Activities

- Developed multiple web applications using **HTML, CSS, JavaScript, and Python**, demonstrating a strong foundation in web development principles and practices.
- Created a **To-Do List Application** that enhances user productivity by allowing users to add, delete, and mark tasks as completed via a user-friendly command-line interface.
- Successfully developed **landing pages** that are visually appealing and user-friendly, contributing to improved user engagement and conversion rates.
- Built a **calculator website**, showcasing my ability to create practical and useful tools that enhance user experience.
- Collaborated with the **SCAPS Forum and Cybotixx team**, enhancing my collaborative skills and making significant contributions to departmental forums.
